THE Grangers, Liberal Republicans and Democrats will unite on a ticket in Kansas, and success is assured.

ALL the elements of opposition to the Republican party in Michigan hold a Convention at Lansing, in a few days. CHANDLER will never return to the Senate.

THE Tribune pertinently inquires, if SANDORNI will practice before RICHARDSON in the Court of Claims. No better opportunity for the immortal trio, RICHARDSON, BUTLER and SANDORNI, could be suggested, than a few fat cases in the Court of Claims.

A STATE Convention of Spiritualists is in session in New Jersey. It consisted of a number of gentlemen and two aged and homely ladies, who perished in wearing breeches. It is proposed that they nominate WILLIE D. JONES, for, otherwise, it seems to be settled that Major General W. D. will not get a "nominate" this season.

THE nomination of Gen. BRISTOW, of Kentucky, for Secretary of the Treasury, gives great satisfaction to members of both parties in his native State. But we are glad to see that the nomination of RICHARDSON, who leaves the Treasury Department under so disgraceful a cloud, to be Judge of the Court of Claims, does not give satisfaction.

THE nomination of F. N. STRUDWICK, Esq., to be Solicitor of the Seventh Judicial District, will give very general satisfaction. Mr. STRUDWICK served with credit to himself in the Legislature of 1870-71. He is a gentleman of private abilities, a good lawyer, and an excellent speaker. He will no doubt fill the office he seeks with skill and fairness.

THE Herald indorses a suggestion of the Columbia (S. C.) Union, that the fifty thousand Grangers of that State contribute each one dollar per month towards the erection of cotton mills in different parts of the State. It would certainly prove an admirable investment, and we think our North Carolina Grangers may well act upon the hint. In no other way can the capital stock be raised, with such slight burden upon the people.

ROCHEFORD, the escaped Communist, has been very much lionized since his arrival in New York. He has, however, acted quite modestly and has not sought publicity.

Of course he had to publish in the Herald, and of course he will lecture—but who could expect anyone to escape these inevitable results of fame.

He soon leaves for London to meet his family, and to rush again into the whirl of French politics.

A "Colored Voter" in the Newbernian calls upon Mr. Purnell to define his position in regard to the Civil Rights bill, asserting that neither Mr. Purnell, nor any other Republican candidate who is opposed to the Civil Rights bill, will get the colored vote of that District. He says the white Republicans must henceforth show their hand by practicing the doctrine they preach.

Try it one more time, THOMAS. You almost swallowed it at Halifax, but among your old acquaintances of Forsyth, you could not stomach it. See what the negroes in Newbern say. You must swallow it, THOMAS, even as your friend HARRIS (LOGAN, not JAMES H.) has done. We await your next utterance from the stump.

The King of Holland has ordered that the troops who took part in the expedition to Aceh shall receive bronze medals, to be struck from the cannon captured there.

The Seventh Judicial District. The nomination of Hon. JOHN KERR for the Judgeship of this Judicial District will be hailed with delight wherever he is known. It is a well-merited compliment to his legal talents; an honor richly deserved; a fitting tribute to his true patriotism, his pure integrity, and many sterling qualities of head and heart. Judge Kerr is one of the "fire-tried" patriots of North Carolina. He has proven his devotion to the country. His faith has been shown by his works. The steel has been rapped, and it has been found to have the true ring. Few, if any public men in this State, have done more for the public than he. The honor which he has received is then a just reward for his many valuable services which he has rendered his country in past years.

Mr. KERR served as Judge of the Superior Court in the "good old times," when the judicial ermine was worn by men of purity and integrity, before the days of carpet-bagging and scallawagery. In Congress, too, he did illustrious service for the State. He made a faithful representative in the National Legislature. The Seventh Judicial District is fortunate in having the opportunity of securing in him a whole-souled North Carolinian, a capital lawyer and an upright gentleman, to preside over the Superior Court.

We are confident in the hope of witnessing his triumphant election. With unbounded pleasure we will chronicle the retirement of the present incumbent into that obscurity for which nature designed him. His fall from the bench will be a good relief to the people of that District. With KERR upon the bench, they will once more have a just administration of the law, and an honest and impartial discharge of all the duties of the high and honorable position of Judge.

A Hard Fight Well Fought, and Its Lesson.

On Tuesday night last the city of Petersburg was the scene of a grand demonstration. The Conservatives in their late municipal election had met a foe flushed with victory, in possession of all the offices, and supported by the patronage of the Federal government. With no compromise of right, but by the united, gallant labors of her citizens, in one glorious day the yoke of Radicalism was thrown off and the city disenthralled. Well do they deserve their jubilee, and heartily do we echo their cries of triumph. The secret of their victory is simple, and we may well learn the lesson.

The merchant, the mechanic, the lawyer, his office, and all devoted one day to the service of their country. It is high time that the people of Raleigh should appreciate the fact, that all members of the Conservative party have a debt to pay to that party. The fact that many of our merchants are afraid to profess their allegiance to Conservatism, or, at least, afraid that if they are active in its behalf that their trade will suffer, is creditable neither to their patriotism nor their good sense. The same is true, in some instances, of the professional man and the mechanic.

Now, if we are in the right, if the re-establishment of honesty in our rulers, if the defeat of mongrelism and the preservation of our public schools are worth any thing, they deserve that all members of the party should work for these results.

Encourage our candidates by attending their appointments. Don't be afraid to applaud brave words. Let every body see that you feel an interest in the result, and if to save your wives and children from the evils attendant upon social equality, it is necessary to be a "party man," why, be a "party man." Our word for it, your business will not suffer.

We regret that we are obliged thus to intimate that a state of feeling has long existed in Raleigh which does not reflect much credit upon us. If we are ever to redeem the country and the State, we must understand, "Who would be free, himself must strike the blow!"

The strange description of hell is that of Heinrich Heine: "Hell," he says, "appeared to me like a great town kitchen with an endless long row of iron pots, and in these sat the damned and were cooked. In the third row sat the heathen, who like the Jews, could take no part in salvation, and must burn forever. I heard one of the latter, as a square-built, burly devil put fresh coals under his kettle, cry out from his pot, 'Spare me! I was once Socrates, the wisest of mortals. I taught truth and justice, and sacrificed my life for virtue.' But the clumsy, stupid devil went on with his work, and grumbled, 'Oh, shut up, there! All heathens must burn, and we can't make an exception for the sake of a single man.'"

It now seems to be pretty generally conceded that the disasters to the sugar, rice and cotton crops in the South will not be as serious as was at first expected. In most of the large cotton districts the water has sufficiently subsided to allow replanting to commence. If the new plant can be got in by the 15th of June, the prospect will be encouraging. The rich alluvial deposit will strengthen and hasten the growth both of the cane and cotton plant. Rice, of course, will not be greatly injured by the large volume of water is speedily removed from it. Precisely such a condition of things prevailed in 1858 and 1859, and the cotton crop of those years was without precedent in extent of yield and fineness of texture.

Numerous applications have been made for the Essex mad-stone at the Petersburg Radicals. Stowell is to have the first choice.

Henri Rochefort, in his seven-column French letter to the Herald, justifies the ruling of the Commune in view of the evident monarchical intentions of the Assembly and its Government, and approves of the execution of the hostages as acts of reprisal. He describes as terrible the sufferings of the Communist prisoners during their trial, transportation and exile in New Caledonia. President MacMahon is bitterly assailed as having been placed in power through the disasters of France. His term, M. Rochefort predicts, will be brief, and the speedy dissolution of the Assembly will surely usher in the Republic. Well, nous verrons.

There are some folks who think it of no importance whether they write well or ill—a class not affectionately beloved in printing offices. Let careless hand or writers read of a law case pending in the Supreme Court, and in which the sole question to be determined is whether a certain letter in a promissory note for \$5,000 is "I" or "J"—whether the said note was made payable to "I. Blankenship" or "J. Blankenship"—the representatives of each party claiming the money. As usually written, "I" and "J" are nearly identical; but the great absurdity here was in putting an initial letter into a promissory note at all.—Tribune.

A CURE FOR HYDROPHOBIA.

A friend, having heard that some of our citizens had been bitten by rabid dogs, and their cure was considered doubtful, sends the following prescription for the cure of patients afflicted by the disease. He says that he can produce evidence that he corroborates what he says. Give the prescription for what it may be worth: "Boil poke root and new milk, equal parts, and give it to the patient until it produces sleep." The above was used in one of the worst stages, and proved effective when science and medicine had failed.—Gaston News.

Sir Edward Thornton, British Minister, held on Saturday morning a long interview with Col. Ralston, of Georgia, upon the subject of landlocked navigation between the Mississippi river and harbors of the South Atlantic. The action upon the subject is regarded by Sir Edward as of the highest importance to the people of Western Europe, and especially to England, and he will, while on an early anticipated visit to his home, show commercial representatives of men there what may be expected, in the way of lower priced bread, from the completion of this road.

WOMAN'S PROGRESS.—One of the most remarkable features of the new Illinois law concerning married women, is the authorization of civil suits between husband and wife. A married woman may do business on her own account, with the same rights and liabilities as if she were unmarried, except as to partnership business, which she cannot enter without her husband's consent, unless he is idiotic or insane, has abandoned or deserted her, or is confined in the penitentiary.

THE CIVIL RIGHTS BILL.—The Rev. Dr. Sears, Superintendent of the Peabody Southern School Fund, made an hour's argument before the House Judiciary Committee on Friday last which provides for mixed schools.

An amateur game of base ball, played at Hartford on Saturday, resulted seriously for some of the players. One had a finger broken, another had his jaw broken and six teeth knocked out; a third received a blow on the head from a bat which may prove fatal.

It is understood that the will of the late J. Edgar Thompson provides that after the death of Mrs. Thompson, his estate is to be used for the erection of a home for the children of employees of the Pennsylvania Railroad killed in the discharge of their duty.

The Indiana judges stand no nonsense from the bar. A lawyer there lately in the course of his argument used the word "disparagement." "Stop using Latin words," said the judge, "or sit down." The poor lawyer, undertaking to explain, was ruthlessly fined \$20 for contempt.

The real hero of the Mill river disaster was the man who risked his life to save his mother-in-law. His name is Tilton, and some one should put him in a poem.—N. H. Palladium.

The Boston Art Museum is going to get up entertainments to secure funds for the purchase of medals of Washington and his wife, valued at \$2,500.

The President has recognized Mateo Crosby as consul of Peru at Boston, and John Wilhelm Tornoe as vice consul of Sweden and Norway at New York.

In Naples a barber will shave, cut hair, comb, brush, black boots, and give you a cigar, and call it square for ten cents.

THE NEW BUFFALO SPRING.

Mecklenburg County, Va.

This Spring, discovered since the last Summer, is shown by analysis, made by Professor J. B. Bailey, of Baltimore, to contain a HEAVY PER CENTAGE of the Bicarbonate of Soda, and many other valuable mineral waters. In fact, it is the

Only Spring in America

containing LITHIA in any substantial quantity. It is this ingredient which has given such celebrity to the Aix-la-Chapelle, the Vichy and the Carlsbad waters of the continent of Europe. Professor George B. Wood, of the University of Pennsylvania, from whom there is no higher authority in the Medical world, says: "There is perhaps NO OTHER REMEDY from which

Equal Efficacy May be Expected,

in the removal of the deposits of the Urates of Soda in the joints, and ligaments, and in the removal of the URIC ACID, and in preventing the deposits in the KIDNEYS; BLADDER and URINARY PASSAGES.

Another distinguished writer says: "It (LITHIA) is peculiarly adapted to the cases of GRAVEL, STONE, GOUT, &c; there is perhaps

NO OTHER KNOWN REMEDY that promises GREATER RELIEF in such cases."

It may be fairly claimed then, that the

NEW BUFFALO SPRING

IS THE GREAT

Remedy of America

In all this class of diseases, its curative power, however, is by no means limited to this class. Its action upon the LIVER is most decided, and it is believed in derangement of the biliary organs, to be second to no other Spring in Virginia.

McNider, the laughest, is in Charlotte.

Durham organizeth a Fire Company to-night.

It would be enough in Wilmington Tuesday for overcoats.

The Salem Literary Society celebrated its 20th anniversary on Friday last.

The value of the property of Winston has doubled within the past three years.

The farmers around Chapel Hill are said to be alarmingly behind with their crops.

Charlotte buyers and bankers of the North will exert to Wilmington on the 18th inst.

The New North State emphatically denies the rumor that Greensboro has the small pox. It is not there or thereabouts.

Stokes county has nominated for the Senate, S. Adams, and for the House, Thos. Martin—a good ticket that will win.

Charlotte has revived and is carrying out to effect its vagrant law. Raleigh would do well to follow the example of the "Future London."

The Durham Tobacco Plant says the civil rights bill is about to raise some of the Republican nominees off the track in Orange county.

Billy Henderson has commenced his campaign oratory to an audience of six at Poor's school-house in Guilford county on Tuesday last.

It is confidently stated that the Carolina Central Railroad will be completed from Wilmington to Charlotte by the first of September.

Rev. Dr. C. F. Deans and Bishop Keener, of New Orleans, are in attendance upon the commencement exercises of Greensboro Female College.

C. W. Harris, of the Wilmington Star, will deliver the literary address before the graduating class at the Wilson Collegiate Institute on the 23d inst.

Simmons B. Jones, the appointee of Hon. Thos. S. Ashe, to the cadetship at West Point, has passed a satisfactory examination and has been regularly admitted.

The heading of the article in the Wilmington Sentinel announcing the nomination of Billy Henderson for Congress, is, "Here's Your Mule." A wicked case, that, Nathies.

Mr. Robinson, an English gentleman, sent out by a company from Yorkshire, England, is now in Stokes county, examining coal and mineral deposits in that section.

Billy Henderson introduced Tommy Purnell to the High Point pulpit as "the candidate for Public Instruction." Very right, Billy, Tommy will receive that public instruction to stay at home next August.

W. S. Moore, of Greensboro, has purchased in the last twelve months the following amount of skins: 3974 doz. rabbit skins, 35 mink and other, 3062 muskrats, 104 mecoons, 278 gray fox, 20 red fox, 423 opossum, 79 cat, and 24 skunk.

James D. Riley, Esq., living near Knapp of Reid, Granville county, while returning home from a funeral Monday evening was attacked by four drunkenmen on the public highway and barely escaped with his life. He was shot at, and the ball passed through his clothing. It is supposed that the party who had a wagon were whisky blockaders, and mistook Mr. Riley for a revenue man.

The Durhams are dry. "Water, more water," is the heading of an article in the last number of the Tobacco Plant.

The Durham Tobacco Plant is responsible for the following:

"Mary Kadin, who lives three miles from Durham, gave birth, a few days since, to twins that rival the celebrated Siamese. The children were fully developed in every part, bodies, arms, hands, and feet, except there was only one head, but two faces with fully developed features, the head bearing a face on either side. One was dead the other living, when born. It is thought that the children would have lived and perished been raised. This is one of the most remarkable freaks of nature ever known."

The Cabinet Ministers.

When their appointees are determined for their inefficiency or disloyalty, the more they seem to be to the President the more they seem to be to the public.

When they finally go, they put, he puts into the top of the cabinet a nice little pack containing a certificate of good conduct, and a white ribbon, and as occasion may require, a pair of trousers.

When the General Williams, "land-aulet" business is done, comes to the surface, and the Government gives him occupation.

When the committee a day or two is questioned in regard to that his private grounds were not graded at the expense of the Board of Public Works, and he denied utterly that anything had been done. Notwithstanding the Attorney General's official documents of the Board of Public Works showed conclusively that a portion of the work on the grounds of the State was done by the Board. The contractor himself who did the work was not paid, and he testified that he removed the Attorney General Williams' 3000 cubic yards, for which he paid him \$2,100.—Syracuse

Resolutions Adopted by the State Executive Committee of the Democratic-Conservative Party.

The State Executive Committee of the Democratic-Conservative party, held in this city on April the 16th, adopted the following resolutions and plan of organization. We give our hearty endorsement to the resolutions, and hope the recommendations to discourage all manner of disorganization in our ranks will be carried out to the fullest extent. We cannot have any independent action this Summer if we would succeed:

RESOLUTIONS.

Resolved, That we deeply sympathize with the people of the West in their want of railroad facilities, and pledge ourselves to use every available means to secure the early completion of their projected lines.

Resolved, That the Republican party have despoiled the State of millions of dollars heretofore appropriated for railroad purposes, is unworthy of public confidence, and that experience justifies the conclusion that if that party should be again constituted with the administration of our internal improvements, its leaders would again prove recreant to their sacred trust, and would divert the public funds to their private purposes.

Resolved, That a wise policy dictates the adoption of such measures as may be necessary to increase the educational advantages of the children of North Carolina.

Resolved, That we earnestly recommend to the members of the Democratic-Conservative party to discourage independent candidates and all other disorganizers, and that all support be promptly withdrawn from every aspirant for office who shall countenance the regular nominees of our conventions.

Resolved, That we tender to the friends of Free Government our sincere congratulations at the triumph of the great principles of the Constitution as illustrated by the Democratic successes in the recent State and local elections.

PLAN OF ORGANIZATION.

The following plan of organization of the Democratic-Conservative party was adopted:

1. The Executive Committee for the State shall consist of as at present appointed, and shall have all the powers heretofore conferred upon it.

2. The Executive Committee for the Congressional and Judicial Districts shall continue as at present constituted, but regularly changed, and shall have general supervision of the affairs of the party in their respective districts.

3. In each county there shall be an Executive Committee composed of a Central Committee of not less than three members, and of at least one Memberman from each township. This Committee shall, under direction of the County Convention, have entire control of county matters. It shall be their duty to see that all the details of the canvass are properly conducted; that the polls are attended by competent challengers, that each Conservative casts his ballot, and that no fraud is perpetrated at the election. They are particularly enjoined to take the necessary steps for the efficient organization of townships, and to seek by a wise administration to promote harmony and to inspire confidence.

4. All Executive Committees are properly chosen by the Conventions held for the respective territorial divisions; but if for any cause there should be a failure by the proper Convention to appoint an Executive Committee, the State Executive Committee may supply the deficiency.

5. Nominations for County officers and members of the General Assembly shall be made by County Conventions, for Town and Township officers, by town and township conventions; for members of Congress and Judicial officers by the District Conventions.

6. All Conventions shall be open, and notice of the time and place of convening the same shall be given. The resignation of Col.
